As we freshen up the building that has housed the Pro Shop, we're excited to introduce a brand-new event space to the Drake Creek family. And here's where you come in—we'd love your help in naming it! Call the Pro Shop to submit your suggested name, and we can't wait to see the creative nominees our community comes up with. Together, we'll give this new space a name that reflects the spirit of Drake Creek!

## 2025 COURSE NEWS

Dear Members,

As we wrap up another great year at Drake Creek, we're excited to share updates and look ahead to 2026. Keep an eye out for our End-of-Year Survey—your feedback helps us improve the course, events, and overall experience for all members. We truly value your input and encourage everyone to take a few minutes to participate when it arrives. Together, we'll make next season even better!

### DID YOU KNOW?

❄ Did You Know? Why We Stay Off the Course in Snow

Walking or playing on the course when it's covered in snow can cause lasting damage. Foot traffic compresses the snow into ice, which suffocates the turf and leads to dead patches come spring. On greens, the effect is even more severe—ice buildup can harm the delicate grass roots and delay recovery once temperatures rise. By staying off the course during snowy conditions, you're helping protect the playing surfaces and ensuring they're healthy and ready for the season ahead.

### INCLEMENT WEATHER

As winter weather rolls in, please remember that course closures or delays may occur to protect playing surfaces and ensure safety. Frost, heavy rain, or snow can make conditions unplayable and cause lasting damage if the turf is disturbed. When in doubt, check our website, facebook or call the pro shop for the latest updates before heading out.

*Merry Christmas,*
